

PRODUCT SPECIFICATION REPORT

FLASH-LIGHT SPLIT™

Oil Split Premium Powdered Concrete Floor Cleaner

DESCRIPTION

A fast-acting, heavy-duty, alkaline powdered floor cleaner, formulated with detergents, wetting agents, water softeners, emulsifiers, alkaline builders and natural citrus solvents, combined to work in conjunction with oil/water separation systems.

FEATURES

- Powerful
- Easy to use
- Hard water tolerant
- Pleasantly scented
- Natural solvent
- Environmentally preferred
- Colorless in use

BENEFITS

- Rapidly penetrates, cuts and lifts dirt, grease and grime from the pores of concrete and masonry floors.
- Sprinkle powder on pre-moistened floor or make a solution using from 1 to 6 ounces of product per gallon.
- Dissolves easily and works well in both hard and soft water.
- Imparts a mild, pleasant, citrus fragrance to solutions.
- Contains a natural citrus solvent to help cut through and remove grease and oil deposits.
- Natural solvent; no color; works with oil/water separation devices.
- Zep Flash Light Split is the ideal alternative where tinted effluent is an environmental concern.

APPLICATIONS

Recommended for use on concrete, brick, slate and quarry tile in manufacturing and other industrialized plants. CAUTION: Do not allow Zep Flash Light Split to dry on glass or painted surfaces. Avoid contact with these surfaces. If contact should occur, rinse with clear water immediately. Particularly effective for:

Airport Terminal Services
Automotive Parts Stores
Automotive Repair Shops

Commercial Printing Facilities
Concrete Block & Brick Suppliers
Equipment Rental & Leasing Services

Industrial Machinery Manufacturers
New & Used Car Dealers
Sanitary Services

A Fast-Acting Alkaline Powdered Cleaner • Designed for Use on Concrete and Unfinished Wooden Floors • Contains Wetting Agents and Emulsifiers to Aid in Removing Heavy Grease and Oil Deposits • Cuts Through Grease and Grime that Strong Alkalies Alone Fail to Remove • Promotes release of oil and grease from effluent waters, allowing for compatibility with most oil/water separation systems without chemical additives or pH adjustments.

DIRECTIONS:

Either of two methods can be used to clean with ZEP FLASH-LIGHT SPLIT, depending upon which is more convenient for the particular job involved.

Either: (1) Wet the surface to be cleaned, then sprinkle ZEP FLASH-LIGHT SPLIT over the area. Allow wetted material to soak on the floor for 5 to 10 minutes, then scrub with long-handled stiff brush. Rinse the floor thoroughly with clear water and allow to dry.

Or: (2) Prepare a solution of ZEP FLASH-LIGHT SPLIT in mop bucket and spread this solution on the floor using a brush or mop. Dissolve 1 to 6 ounces of Zep Flash-light Split per gallon of water, depending on amount of soil. Allow this solution to soak on the floor 5 to 10 minutes, then scrub with long-handled stiff brush. Rinse the floor thoroughly with clean water, and allow to dry.

NOTE: Do not use on or allow solution to contact and/or dry on aluminum or other soft metals, glass or painted surfaces as damage may result.

WEAR
GOOGLES

CAUTION!

Contains sodium metal/calc.

CAUSES BURNS

Corrosive to skin and eyes. Eye contact will cause severe irritation which may lead to permanent damage or blindness. Skin contact may produce irritation, which, if material is not removed, can become severe or result in a corrosion injury. Inhalation of dust or ingestion may produce severe irritation or corrosion of respiratory and gastrointestinal tracts. Avoid contact with skin and eyes. DO NOT swallow this product. DO NOT breathe dust. Repeated exposure can have cumulative effects. Further information on the effects of

WEAR
GOOGLES

overexposure is included on the Material Safety Data Sheet, which is available upon request.

Zep advocates limiting exposure to all chemical products. Wear tight-fitting, splash-proof safety goggles during product use and when eye contact is possible, especially contact lens wearers. Wear nitrile, neoprene, natural rubber, or other resistant gloves and alkali-resistant footwear; also wear a face shield and rubber apron whenever splashing can occur. Wear dust-excluding clothing. Use product in well-ventilated areas only; open windows/doors and use exhaust fans in enclosed spaces. Remove contaminated clothing promptly; DO NOT rewear until thoroughly cleaned. After handling, wash hands thoroughly with soap and water.

FIRST AID:

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

SKIN: Immediately flush contaminated skin with plenty of water for at least 15 minutes. Get medical attention immediately.

INHALATION: Move affected person to fresh air. Flush mouth and nasal passages with water repeatedly. Get medical attention if irritation persists.

INGESTION: If this product is swallowed, DO NOT induce vomiting. If affected person is conscious, give plenty of water to drink. Get medical attention at once.

DISPOSAL AND/OR SPILL INFORMATION: As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel, or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, pick up and deposit spilled material in a sealable, D.O.T. specification container for disposal as a hazardous waste. Rinse area well with water.

STORAGE: To seal out moisture and prevent hardening of product, keep container tightly closed when not in use. Store in a dry area.
