# SUPER FLASH™

## Heavy-Duty Concrete Floor Cleaner

### DESCRIPTION

A heavy duty, powdered, alkaline floor cleaner. Specially formulated from a combination of detergents, alkaline builders, water softeners and butyl solvent to quickly degrease and clean surfaces.

### FEATURES

- “Butylated”
- Penetrates
- Non irritating
- Free rinsing
- Built-in indicator
- USDA authorized
- Biodegradable

### BENEFITS

- Super Flash contains a “butyl” solvent to help cut through and remove heavy grease and oil deposits from concrete, asphalt, brick, slate, quarry tile, ceramic tile floors and steel catwalks.
- The unique detergent formula penetrates deep into surface pores to lift and remove embedded soil, grease and grime.
- Contains no caustic soda; produces no irritating fumes or unpleasant odors. Will not harm concrete, asphalt, etc., when used as directed.
- Super Flash’s synthetic detergents rinse freely and leave no residues; recommended for cleaning floors prior to sealing or resealing.
- Has a built-in indicator to show solution strength and to indicate thorough coverage and rinsing.
- Floor and wall cleaner, all departments.
- Environmentally safe, Super Flash contains only biodegradable surfactants and emulsifiers.

### APPLICATIONS

Ideal for garages, food processing plants, manufacturing plants and on driveways, parking areas, airport runways, plus other concrete surfaces.
