Description

This advanced product when used with the can in an upright position is a true high performance duster. The product utilizes the highest purity nonflammable HFC material to create a non-residue formula that is completely plastics safe and contains no ozone depleters. The blasting spray quickly and easily removes dirt and dust from surfaces including contacts, circuit boards, micro-components, relays, print heads, televisions and monitors, VCR/CD/DVD/DVR devices, and more. It is ideally suited for the maintenance of all electronic or electrical devices in industry from computers and office equipment to industrial machinery and manufacturing equipment, but is also excellent for use in optics, arts, and other applications where no-touch precision cleaning is required.
