#### Description

This product is an environmentally preferable treatment system that naturally biodegrades greases, fats, soaps, food particles, proteins, animal wastes, carbohydrates (such as sugar and starch) and suspended organic solids turning them into free flowing liquids. This product is formulated to contain billions of enzyme producing bacterium per ounce and contains synergistic ingredients to improve the products performance. It controls hydrogen sulfide odors, reduces B.O.D. and C.O.D. improving water quality by consuming organic waste matter and sulfur compounds. In addition to treating drains it is also a topical treatment that deodorizes and neutralizes pet urine on carpets and treats urine odors when sprayed around urinals and toilets.
