Description

This product is a concentrated, low-foaming, carpet cleaning product for use with cold or hot water extraction machines or steam cleaning units. This product is specially formulated with wetting agents, water softeners, penetrants, and detergents for high performance in extraction cleaning. This multi-functional product is designed for cleaning of carpets, rugs and upholstery including stain resistant nylons. Due to the complexity of the formulation, this one product may be used to clean water-soluble soils such as dirt, coffee, cola and grass stains, as well as oil-based matter such as grease, oils and lipstick. The deep, penetrating action of this product will clean carpet pile of soil and detergent residues which cause compaction under foot traffic. In addition, the formula contains a professional strength odor counteractant to keep areas smelling fresh and clean as well as additives to prevent clogging of extraction jets.
