

PRODUCT SPECIFICATION REPORT

A preferred alternative to products containing chlorinated solvents, CFCs, and HCFCs. It cleans and dries quickly, contains no water, and leaves no residue. Dries ignitions and cleans contact points. Dielectric breakdown strength: 13,800 volts.

POWER SOLV 5000 NA

Solvent Degreaser

PROD. #0023

FEATURES/BENEFITS:

Heavy-Duty Degreaser	Rapidly removes grease, oil, from surfaces
Fast Evaporation	Evaporates quickly to provide dry working conditions
Leaves no residue	Complete removal and drying leaving no residue
Non-conductive	High Dielectric for work around energized circuits
Contains no CFC's or ODC's	Does not contain Ozone depleting compounds

APPLICATIONS:

Dries ignitions and cleans contact points. For use on diesel and internal combustion engines, marine motors, power tools, refrigeration and air conditioning equipment, electric motors, and auto upholstery (as a solvent spotter).

**Note Spot test for safety before using on plastic surfaces.*

DIRECTIONS:

For light soil, spray surface and wipe clean. For heavy deposits, saturate thoroughly and let stand for 15 to 30 seconds. Then flush a second time and wipe clean.

COMPANION PRODUCTS:

Zep Power Solv 5000, ID Red, True Blitz

SPECIFICATIONS:

Physical Form	Liquid
Color	Colorless, clear
Odor	Characteristic
Specific Gravity	1.316 g/cm ³
Shelf Life	5 years

PACKAGING:

002311 (12 x 20 oz.)
