

# PRODUCT SPECIFICATION REPORT

An aerosol adhesive which provides a fast, high strength bond formulated especially for porous surfaces and some smooth surfaces.

## AERO TAC II™

PROD.#0225

*High Strength Spray Adhesive for Porous Surfaces*

### FEATURES/BENEFITS:

Lace Spray Pattern	Spray pattern reduces soak-in and provides an extremely high bond on surfaces.
Fast Tack	Fast evaporating solvents gives the formula very fast tack.
Versatile	Will bond porous surfaces such as paper, foam, fabric, dry wall, brick, and concrete. Also bonds plastic, polyethylene and painted surfaces with no degradation of polystyrene. (Over application can pit smooth polystyrene.)
Repositionable	Applying the adhesive to one surface forms a temporary bond which allows repositioning before drying.
No Chlorinated Solvents	Formulated with no chlorinated solvents, which many facilities are prohibiting.

### APPLICATIONS:

Excellent for use in maintenance shops, industrial and manufacturing plants, distribution centers, garment industry facilities, furniture and automotive upholstery shops, construction shops, exhibits and display manufacturers, and theatrical design shops.

### COMPANION PRODUCTS:

Formula 166, Zeprestore, Quick Grip Liquid, Formula 50, Tuff Green RTU(GreenLink), Brake Wash, Cherry Bomb, Shell Shock(GreenLink), Rescue, Odorstroyer Extra(GreenLink), Elec II Plus

### SPECIFICATIONS:

Physical Form	Aerosol (liquid)
Color	White
Odor	Slightly Minty
Flammability	Extremely Flammable by CSMA Flame Extension
Shelf Life	1 Year Minimum
D.O.T. Shipping Label	ORM-D

### PACKAGING:

20 fl oz can
