

PRODUCT SPECIFICATION REPORT

ZEP BIG Z™ Prepainted Aluminum Trailer Wash

DESCRIPTION

Liquid, heavy-duty, alkaline cleaner for use on painted trucks, panel trailers, Fiberglas, or unpainted aluminum. Can be used in an automatic truck wash or through a high-pressure washer. Formulated from a concentrated blend of heavy-duty detergents, emulsifiers, alkaline builders, water softeners, and inhibitors. Clear, thin, dark brown in color with essentially no odor.

FEATURES

- Non-acid
- Powerful cleaning action
- Versatile
- Contains no fluorides
- Biodegradable and phosphate free

BENEFITS

- Uses a high alkaline system to brighten aluminum.
- Provides remarkable cleaning action, especially on painted panel trailers which are not easily cleaned with conventional acid brighteners.
- Use on unpainted aluminum. Fiberglas or painted trucks and trailers.
- Brightens aluminum effectively without use of toxic fluoride compounds. Will not etch or frost glass.
- Contains only biodegradable surfactants and is phosphate free.

CAUTION: Sodium hydroxide. High concentrations and/or long contact time may damage aluminum.

NOTE: Do not use on ordinary paint, on automotive finishes, or on highly polished or anodized aluminum.

APPLICATIONS

Use only at recommended use-dilution in an automatic wash system or high-pressure sprayer. Follow label directions and precautions exactly.
