

PRODUCT SPECIFICATION REPORT

A heavy-duty, powdered alkaline cleaner designed for use in hot vat solutions to remove dirt, grease, rust, scale, and paint from ferrous metals.

ZECO 40™

Heavy Duty Hot Vat Cleaner

PROD. #0482

FEATURES/BENEFITS

Heavy Duty	Zeco 40™ is an effective caustic cleaner that attacks industrial scale and softens it so that it can be easily removed by agitation.
Economical	With moderate use, Zeco 40 vat solutions last for months with occasional 'sweetening'.
Versatile	Used in hot or cold vats to clean ferrous metal parts
Excellent Cleaner	Contains emulsifiers that promote good grease removal and help prevent redeposition onto cleaned parts.
Kitchen Exhaust Hood Cleaning	Excellent degreaser for grease soils on exhaust hoods

Note: Not intended for use on aluminum or other soft metals.

APPLICATIONS

It may be used for cleaning radiators and cooling systems in place or in a hot vat. It is an excellent product for radiator and general automotive shops to remove grease, rust, and scale. For use in: Automotive Parts Stores, Highway Paving Contractors, Car Dealers, Automotive Repair Shops, Industrial Machinery Suppliers, Plumbing and Heating Equipment, and Rental Service Stations

COMPANION PRODUCTS

Vat Neutralizer, Safety Sense X-287, Brake Wash, Elec II Plus, Cherry Bomb, Zepride, Spray Cabinets, safety glasses, gloves.
