

PRODUCT SPECIFICATION REPORT

FORMULA 75 RINSE AGENT™

Liquid Rinse Agent Additive for Car Wash Operations

DESCRIPTION

A liquid rinse additive for car wash operations containing drying agents, water soluble solvent, aliphatic hydrocarbons, surfactants, and water.

FEATURES

- Economical
- Easy to Use
- Accelerates Drying
- No Water Spotting
- Long Lasting

BENEFITS

- Effective at dilutions up to 1 part concentrate to 250 parts water. At this dilution, 1 gallon of product will treat up to 125 cars.
- May be injected directly into rinse cycle of automatic systems, or applied manually with appropriate sprayers.
- Beading effect on car surface makes drying of auto surface faster.
- Eliminates water spotting on auto finish by causing water to bead and run off rather than puddling.
- Provides long lasting wax beauty and protection to car finishes.

APPLICATIONS

Applied as additive to final rinse water in car wash operations. See label for specific use directions and precautionary measures.

PERSONAL PROTECTION EQUIPMENT	B	Safety Glasses & Gloves

A liquid concentrate for applying car-finish protection in the rinse water of any car wash operation. Prevents oxidation of paint, protects exposed metal against corrosion. When a solution of ZEP FORMULA 75 is applied to a car, it begins to bead up on the surface, making it easy to remove by air blower or wiping. For this reason, it is often referred to as a "Drying Agent".

DIRECTIONS:

Use at a final dilution of 1:250 to 1:500

WARNING!

CAUSES EYE IRRITATION
HARMFUL IF SWALLOWED

Causes eye and skin irritation. Inhalation of spray mists or vapors may cause respiratory tract irritation and/or mild central nervous system depression characterized by headache, dizziness, nausea, or stupor. DO NOT swallow this product. Aspiration hazard if swallowed, can enter lungs and cause damage. Avoid breathing vapors or spray mist. Exposure may aggravate existing skin or respiratory disorders. Further information on the effects of overexposure is included on the Material Safety Data Sheet, which is available upon request. Zep advocates limiting exposure to all chemical products. Wear tight-fitting safety goggles, especially contact lens wearers. Wear natural rubber, nitrile, neoprene, or other resistant gloves. Use product in well-ventilated areas only, open window/doors and use exhaust fans in enclosed spaces. Remove contaminated clothing promptly and DO NOT rewear until thoroughly cleaned. After handling wash hands thoroughly with soap and water.

FIRST AID:

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

SKIN: Wash contaminated skin immediately and thoroughly with soap or mild detergent. Apply a skin cream. Consult a physician if irritation develops.

INHALATION: Move exposed person to fresh air. If irritation persists, get medical attention immediately.

INGESTION: If product is swallowed, DO NOT induce vomiting. If vomiting occurs, keep head below hips to prevent aspiration (breathing) of liquid into the lungs. Get emergency medical attention immediately.

DISPOSAL AND/OR SPILL INFORMATION: As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel, or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, absorb product on an inert absorbent material, such as Zep-O-Zorb, and deposit in a sealable container. Rinse area well with water.

STORAGE: Store in a cool area away from direct sunlight. Keep container tightly closed at all times when not in use to decrease evaporation of volatile solvents.
