

PRODUCT SPECIFICATION REPORT

A fast acting, heavy duty, alkaline powdered floor cleaner, formulated with detergents, wetting agents, water softeners, emulsifiers, alkaline builders and pine oil.

FLASH™

PROD. #0723

Premium Grade Concrete Floor Cleaner

FEATURES/BENEFITS:

Powerful	Rapidly penetrates, cuts and lifts dirt, grease and grime from the pores of concrete and masonry floors
Easy To Use	Contains no caustic soda; produces no irritating fumes; will not harm concrete floors when used as directed
Hard Water Tolerant	Dissolves easily and works well in both hard and soft water
Pleasantly Scented	Imparts a mild, pleasant, pine fragrance to solutions
Biodegradable	All surfactants and emulsifiers are biodegradable

APPLICATIONS:

Recommended for use on concrete, brick, slate and quarry tile. Particularly useful in:

- | | | |
