

# PRODUCT SPECIFICATION REPORT

Strip-Ease is an economical, deep-penetrating, low-foaming floor stripper that does not require machine scrubbing or neutralizing. It is designed specifically to remove floor finish from resilient tile and other types of flooring.

## STRIP-EASE™

Heavy Duty, Water-Based Floor Stripper

PROD. #1071

### FEATURES/BENEFITS:

Effective	Powerful solution quickly penetrates and dissolves even multiple coats of finish for easy removal
No Agitation Required	When hot water is used, scrubbing is generally unnecessary
Rinses Easily	Can be removed completely and quickly with a mop or wet vac
Versatile	Formulated for use on any flooring surface, particularly resilient tile
Non-Caustic	A lower pH negates the need to add neutralizers to the rinse water
Non-Phosphate	Strip-Ease does not contain phosphates which may be regulated by certain water districts
Non-Ammoniated	This stripper does not contain irritating ammonia

**NOTE:** Do not allow stripper to dry, as finish can re-adhere to floor surface.

### APPLICATIONS:

For Heavy Duty Stripping dilute 1 part Strip-Ease with 4 parts water. Recommended for use to hotels, motels, schools, convention centers, office buildings, showrooms, shopping malls, medical facilities, government buildings, supermarkets, and more.
