ASPHALT RELEASE FREEZE FREE™
Asphalt Release Agent

DESCRIPTION
A concentrated blend of biodegradable asphalt release agents for cold weather use.

FEATURES BENEFITS

- Low temperature stability
  • Remains pourable to 20°F (-7°C); stable in storage at even lower temperatures, allowing pumping and use in cold months.
- Excellent release properties
  • No wasted time or product caused by “sticking”.
- Economical
  • Concentrated formulation may be diluted up to 1 to 20 parts water for use. Apply emulsion with Zep Model 204-C proportioner, air-driven diaphragm pump or pump-up sprayer. It can be applied through existing foamer.
- Does not affect asphalt
  • Product conforms to regulations pertaining to asphalt construction.
- Easy clean-up of equipment
  • Equipment may be easily cleaned by rinsing thoroughly with water.
- Harmless to most
  • No concerns about overspray onto truck cab or other painted surfaces equipment surfaces.

NOTE: This product will not foam regardless of application method. It is formulated to apply as a white emulsion, which quickly “breaks,” leaving an oily release film on the surface.

APPLICATIONS
Use as a slip coating on floor, walls, and tailgate of asphalt trucks and equipment to prevent adhesion of asphalt. Especially useful for:

- Building Contractors
- Equipment Rental & Leasing
- Highway Paving Contractors
