BURNISH BOOST™

A concentrated, water based gloss restorer for floors. Extends the life of the floor finish.

DESCRIPTION

Concentrated cleaner, "wet look" restorer for finished floors.

FEATURES

- Excellent reparability
- Brilliant gloss
- Reduces maintenance costs
- Concentrated
- No dirt encapsulation
- No rinse
- Low Odor

BENEFITS

- Provides cleaning of finish surface, repair of deep scuff marks, and removal of black-heel marks.
- Restores a brilliant "wet look" shine without re-application of finish.
- Eliminates need for frequent mopping, stripping, and refinishing of floors. Pre-burnishing restoring may be conducted 1 to 2 times per week, or just when a significant gloss enhancement is needed, but deep scrub and recoat is not practical.
- Autoscrubber application should be done at 4 oz per gal with a red pad, picked up going over the floor once, allowed to dry, then burnished for gloss. For mop application, use 2oz per gallon, allow floor to dry, then burnish to gloss.
- The Burnish Boost process removes soil from the floor rather than sealing it into the finish.
- After cleaning, burnishing removes residues from the floor as it "boosts" the gloss.
- Unlike some floor products, Burnish Booster has a mild, detergent like odor. No harsh solvent odor or overpowering perfume.

APPLICATIONS

Specifically formulated for ultra-high-speed burnishing with the Zep Model 20 Ultra-High-Speed Floor Burnisher or the Zep Propane UHS Burnisher. Highly effective when restoring Zep self-polishing finishes. Particularly useful in:

Airport Terminal Services
 Building Service Contractors
 Child Day Care Services
 Operators of Apartment Buildings

Eating & Drinking Establishments
 Hotels & Motels
 Nursing Homes & Hospitals
 Grocery Stores

Real Estate Brokers
 Schools & Educational Services
 Department Stores

BURNISH BOOST

"WET-LOOK" RESTORER FOR FLOORS

DIRECTIONS

Daily Mopping - Dilute Zep Burnish Boost at 1/2 to 1 ounce per gallon in the mop bucket. Mop floor. No rinsing is required.

Daily Automatic Scrubbing - Fill the solution tank with water and add Zep Burnish Boost at a rate of 1/2 to 1 ounce per gallon of tank capacity. Scrub floor and pick up solution with auto scrubber. No rinsing is required.

Pre-Burnishing Restoring - Dilute Zep Burnish Boost at the rate of 3 to 4 ounces per gallon of water and apply to the floor either by mopping or with an automatic scrubber. Do not flood. Allow product to dry. Buff with an ultra-high-speed burnisher, such as the Zep Model 20 UHS Burnisher or Zep Propane Burnisher. Pre-burnish restoring may be conducted 2 or 3 times per week or just when a significant gloss enhancement is needed but deep scrub and recoat is not practical.

WARNING!

CAUSES EYE IRRITATION

Concentrate can cause eye irritation. May cause skin irritation. DO NOT swallow this product. Avoid contact with eyes. Further information on the effects of overexposure is included on the Material Safety Data Sheet, which is available upon request from your

employer.

Zep advocates limiting exposure to all chemical products. Zep strongly recommends wearing goggles or safety glasses, especially when wearing contact lenses. The use of rubber, neoprene, nitrile, or other resistant gloves is strongly recommended for prolonged use. Remove contaminated clothing promptly and DO NOT rewear until thoroughly cleaned. After handling, wash hands thoroughly with soap and water.

FIRST AID

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

SKIN: Flush affected area with plenty of water. Consult a physician if irritation develops.

INHALATION: Move exposed person to fresh air. If irritation persists, get medical attention immediately.

INGESTION: If this product is swallowed, DO NOT induce vomiting. If affected person is conscious, give plenty of water to drink. Get medical attention at once.

DISPOSAL AND/OR SPILL INFORMATION: As with all cleaning and maintenance procedures, run-

off from the cleaning or maintenance process should be diverted to a collection vessel, or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, absorb product on an inert absorbent material, such as Zep-O-Zorb or Zep Super Sorbent, and deposit in a sealable container. Rinse area well with water.
STORAGE: Keep this product away from food and food products. Store tightly-closed container in dry area at temperatures between 40°F (4°C) and 120°F (49°C).
