

PRODUCT SPECIFICATION REPORT

MicroSolve Disinfectant Cleaner, used in conjunction with MicroSolve Activator Solution, cleans and disinfects hard, non-porous surfaces in food processing facilities and food service areas. In addition, this product is capable of penetrating and removing biofilms,* which are resistant to most cleaners.

MICROSOLVE ACTIVATOR SOLUTION

PROD. #2874

An Activator for MicroSolve Disinfectant Cleaner

FEATURES/BENEFITS:

Effective Cleaner	Designed to penetrate and remove stubborn organic deposits from processing equipment, walls, floors and drains
Disinfectant	Efficacy against a wide range of microorganisms of concern in food processing facilities (see label for list of specific organisms)
Sanitizer	May be used to control <i>Enterobacter aerogenese</i> (ATCC 13048) and <i>Staphylococcus aureus</i> (ATCC 6538) on non-food contact surfaces
Fungistat & Mildewstat	Controls the growth of mold and mildew organisms, <i>Aspergillus niger</i> , (ATCC# 6275), and the odors they cause on hard, nonporous surfaces
EPA Registered for Biofilm Treatment*	This product is uniquely formulated and EPA registered to penetrate, and remove biofilm and other organic contaminants*
Foaming Action	The two-product solution activates into a self-scrubbing foam, so manual brushing is not required
Easy to Use	The mixture can be sprayed or foaming equipment can be utilized to maximize the surface contact of the cleaner on equipment, counters, floors, walls, and hard-to-reach areas such as drain lines

NOTE: The MicroSolve Activator Solution must always be used with the MicroSolve Disinfectant Cleaner. All features and benefits listed above are valid only for the two-part solution. The product labels should be referenced for specific application guidelines and dilution ratios.

APPLICATIONS:

Dilute a combination of MicroSolve Disinfectant Cleaner and MicroSolve Activator Solution with water according to label directions. Recommended for use in food processing facilities, such as meat plants, poultry operations, hatcheries, dairies, wineries, and breweries. Also recommended for food service industries, animal care facilities, schools, and hospitals.

COMPANION PRODUCTS:

MicroSolve Disinfectant Cleaner, FS Z-Chlor, FS CIP Cleaner, FS Process Cleaner, FS Amine Z, Sanitary Spray Lube, White Slide, FS Antimicrobial Foaming Hand Soap, E-2 Foaming Hand Soap, Alcohol Spray Sanitizer, Zep Foaming Equipment

SPECIFICATIONS:

Physical Form	Liquid
Color	Clear
Odor	Odorless
Flammability	Not Flammable
pH	11-14
Shelf Life	24 months
D.O.T. Shipping Label	Class 8, CORROSIVE LIQUID
