PRODUCT SPECIFICATION REPORT

ZEP PORTABLE TOILET DEODORANT XT-9992™

DESCRIPTION

A super-concentrated, non-formaldehyde, liquid deodorant for use in portable toilets.

FEATURES

- Non-formaldehyde
- Powerful odor control
- Intense blue dye
- Cleaning action
- Super-concentrate
- Biodegradable

BENEFITS

- Can be used where formaldehyde is restricted or prohibited.
- Chemically neutralizes unpleasant odors and leaves a lingering pleasant fragrance.
- Zep Portable Toilet Deodorant XT-9992 utilizes an intense blue dye that effectively conceals toilet waste.
- Detergent additives allow the product to be used to clean as it deodorizes.
- Mixes one 5 gallon pail of product into a 55 gallon drum with water, then dilute again at 1 oz of product per gallon of water into the tank or toilet.
- Water-based formulation is completely biodegradable and does not interfere with waste water treatment.

APPLICATIONS

Use in portable toilets at construction sites, public parks, sporting events, concerts and large public gatherings and in self-contained toilets in buses, boats, and recreational vehicles.

Zep XT-9992 is a highly concentrated, liquid deodorant specifically formulated for use in portable toilets. It dilutes with water to form a solution that chemically counteracts malodors. The water-based formulation provides rapid dispersion and is completely biodegradable.

DIRECTIONS:

Mix 1 pail of Zep XT-9992 with water to make 55 gallons of premix. Dilute 1 part premix in 100 parts water for the tank or toilet.

WARNING! CAUSES IRRITATION

Can cause severe skin and eye irritation or inflammation. Inhalation of spray mists or vapors may cause respiratory tract irritation. DO NOT breathe vapors or spray mist. DO NOT swallow this product. Exposure may aggravate existing skin, eye, or respiratory disorders. Further information on the effects of overexposure is included on the Material Safety Data Sheet, which is available upon request. Zep advocates limiting exposure to all chemical products. Wearing tight-fitting, splash-proof safety goggles is recommended especially when mixing and pouring product. Wear natural rubber, nitrile, neoprene, or other resistant gloves. Work with concentrate in well-ventilated areas only. Remove contaminated clothing promptly and DO NOT rewear until thoroughly cleaned. After handling, wash hands thoroughly with soap and water.

FIRST AID:

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

SKIN: Flush contaminated skin with plenty of water for at least 15 minutes. Get medical attention if irritation develops.

INHALATION: Move exposed person to fresh air. If irritation persists, get medical attention immediately.

INGESTION: If this product is swallowed, DO NOT induce vomiting. If vomiting occurs keep head below hip level to prevent aspiration (breathing) of fluid into the lungs. If affected person is conscious give plenty of water to drink. Get medical attention at once.

DISPOSAL AND/OR SPILL INFORMATION: As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel, or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, absorb product on an inert absorbent material, such as Zep-O-Zorb or Zep Super Sorbent, and deposit in a sealable container. Rinse area well with water.

STORAGE: Store tightly closed container in dry area at temperatures between 40°F (4°C) and 120°F (49°C). DO NOT store at temperatures below 32°F (0°C). Keep this product away from food and food products.
