

# PRODUCT SPECIFICATIONS REPORT

Zep 2-Step Injector Service for Diesel Engines with advanced SYNTEUM-FI Technology cleans the total fuel system, including intake valve seats, compression chambers, fuel injectors, carburetors, oxygen sensors and fuel lines.

## DIESEL INJECTOR SERVICE KIT

PROD. #568000007

Vehicle Maintenance, Diesel Fuel System Maintenance

### FEATURES BENEFITS

STEP 1 | STEP 2

Improves power and performance	Helps return compression	Improves cold starts	Protects against build-up
Reduces emissions	Oxygen sensor safe to factory levels	Removes carbon deposits	

### DIRECTIONS

#### Step 1 – Diesel Intake System Cleaner

1. Position vehicle in well ventilated area.
2. Turn off engine, lift hood and locate the air intake filter housing.
3. Remove air intake filter unit.
4. Start the engine and bring to a smooth idle.
5. Attach multi adapter tool/hose to can.
6. Place and hold adapter nozzle into intake housing roughly 4 to 5 inches past any air flow sensors, ensuring that the nozzle is held/positioned in the center of the air intake housing.
7. With the engine running at operating temperature, slowly depress or actuate the product allowing it to be released directly into the vacuum of the air intake.
8. Carefully monitor the engine idle speed while performing the service. DO NOT allow the engine to over rev. For best results, depress the actuator intermittently while shaking the aerosol can until empty. If utilizing the lock actuator feature, and over revving should occur, immediately unlock the actuator and remove applicator hose from the air intake housing.
9. When the can is empty remove adapter nozzle from intake housing and replace intake filter and cover. For best performance, replace with new intake filter.
10. Allow vehicle to idle for 3 minutes, snapping accelerator 3 times, to remove dislodged carbon particles from the exhaust system.

#### Step 2 – Diesel Fuel Injector Cleaner

1. Install Zep Diesel Fuel Injector Cleaner into fuel tank and fill with diesel fuel.
2. Twelve fluid ounces of Zep Diesel Fuel Injector Cleaner treats up to 37 gallons of diesel fuel.
3. Avoid contact with painted surfaces.

### COMPANION PRODUCTS

Diesel Fuel Conditioner : 12-12oz. bottles (568000171)

Diesel Fuel Injector Cleaner: 12-12oz. bottles (568000172)

### SPECIFICATIONS

#### Diesel Intake System Cleaner

Physical Form	Aerosol Liquid
Color	Amber, Clear
Odor	Solvent-Like
Flammability	Extremely Flammable Aerosol
Shelf Life	5 Year
D.O.T. Shipping Label	UN1950, Aerosols, Flammable, 2.1

#### Diesel Fuel Injector Cleaner

Physical Form	Liquid
Color	Brown
Odor	Characteristic
Flammability	Flammable Liquid
Flashpoint	41.1°C
Shelf Life	3 years
D.O.T. Shipping Label	ORM-D
