# ZEP FS FLOOR TREATMENT™

(X-1102)

For use on concrete, ceramic tile, and quarry tile floors in food plants. Helps maintain floor and floor drains in the treated area in a sanitary condition.

### DIRECTIONS

Wet floor with water hose and then hand broadcast Zep X-1102 floor treatment uniformly over entire wet area. Allow to stand at least 10 minutes. Rinse thoroughly with potable water as needed in edible areas. If desired, product may be allowed to remain on floor for an extended period of time in other designated areas.

### WARNING!

CAUSES IRRITATION

Contact may produce skin and eye irritation. Potential skin sensitizer. Avoid contact with eyes and prolonged skin contact. Inhalation may cause respiratory tract irritation. Avoid inhalation of dusts. DO NOT swallow this product. Further information on the effects of overexposure is included on the Material Safety Data Sheet, which is available upon request from your employer.

Zep advocates limiting exposure to all chemical products. Zep recommends wearing goggles or safety glasses during product use and handling. The use of rubber, neoprene, nitrile, or other resistant gloves is recommended for prolonged use. Remove contaminated clothing promptly and DO NOT rewear until thoroughly cleaned. After handling, wash hands thoroughly with soap and water.

### FIRST AID:

**EYES:** Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

**SKIN:** Immediately flush affected skin with plenty of water for at least 15 minutes. Get medical attention if irritation develops.

**INHALATION:** Move affected person to fresh air. Get medical attention immediately if irritation persists.

**INGESTION:** If this product is swallowed, DO NOT induce vomiting. If affected person is conscious, give plenty of water to drink. Get medical attention at once.

**DISPOSAL AND/OR SPILL INFORMATION:** As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel, or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, sweep up product and deposit in a sealable container. Rinse area well with water.

**STORAGE:** To seal out moisture, keep container tightly closed when not in use. Store in a dry area at temperatures between 40°F (4°C) and 120°F (49°C).
