

PRODUCT SPECIFICATION REPORT

Antarctica with CMA (Calcium Magnesium Acetate) is made with calcium chloride flakes, which makes it one of the fastest acting ice melter on the market.

ANTARCTICA with CMA

Professional Snow and Ice Melter

PROD. #N628

FEATURES/BENEFITS:

Fast Acting	The active ingredients in Antarctica with CMA allows it to attack the snow and ice with instant heat.
Corrosion Inhibitors	This product has added corrosion inhibitors that provide increased safety. The enhanced CMA formula helps to protect against damage to concrete. The CMA also enhances the pH level of the soil structure.
Traction Control	Antarctica with CMA adds "Dolomite" for greater levels of safety and performance.
Visible	The environmentally inert green indicator makes application easier and more accurate. It allows you to see where the ice melt was applied, at what rate and where it was missed.
Does not leave residue	It will not leave an oily residue that can be tracked onto carpets or floors staining or attacking them.
Resealable Bags	Quality, heavy-duty resealable bags are heat sealed and do not leak.
Bottom Gusset	Allows the bag to stand up for easy access.

APPLICATIONS:

When used as directed, Antarctica with CMA will not harm concrete, grass or shrubs, and it will not stain carpets or attack leather. Ideal to be used by: plants, warehouses, schools, restaurants, hospitals, stores, etc

COMPANION PRODUCTS:

Liquid Ice Melt, R-4204 (Vehicle Road Salt Neutralizer), Formula 7961, Super D-Ice, Ice Melt, Ultrawipes, Gloves and Wilson Sport Safety Glasses.

SPECIFICATIONS:

Physical Form	Granules Solid
Color	Green
Odor	N/A
pH in Solution	7.2
Solubility in Water	Water Soluble
Shelf Life	1 Year Minimum
DOT Shipping Label	N/A

PACKAGING:

N62801 – 50 lb. bag
N62849 – 49-50 lb. bag pallet
