Grab That Dust

Sweeping Compound

Fine dust on floors can be tough to effectively eliminate since it moves around and up into the air as you sweep. The solution: this effective sweeping compound that adheres to dust particles, making them easy to pick up and remove.

Benefits:

- Economical all purpose compound
- For all hard floor sweeping applications
- Just spread on floor and sweep up
- Works on marble, concrete and untreated wood floors

Applications:

- Used to control dust on industrial floors

Directions for Use:

Apply Sweeping Compound by lightly sprinkling a small amount onto the floor. It is not necessary or advisable to cover the entire floor with compound. Be careful not to walk on the compound and/or leave it on the floor for extended periods (longer than necessary to sweep the floor). Sweep up the compound.

Base Code: R035
