**No Rinse, All Performance**

**Foaming AC Coil Cleaner**

To promote efficient heat transfer and reduce cooling costs, use this convenient foaming aerosol formulation. Designed to clean coils in window and rooftop AC units, it's easy to use and clean way tough soils without the need for heavy containers or dilution systems. Just spray on and the highly effective foam does all the work.

**Benefits:**

- Quickly penetrates to loosen dirt, dust and grease
- Improves AC efficiency
- Convenient aerosol
- No rinsing needed

**Applications:**

- Warehouses
- Office buildings
- Apartment homes
- Any building with large, rooftop air conditioning units

**Directions for Use:**

Turn off air conditioner fan. Shake can thoroughly. Remove accumulations of loose soils, such as lint or leaves, with a brush, broom or vacuum. Hold can approximately 1 foot from the air intake side of the coil and direct the spray to evenly cover the coil surface. Allow foam to stand on the surface for 30 seconds to 1 minute. Turn on fan. No rinsing needed.
