Brakes' Best Friend, No Chlorinated Solvent

Brake Wash Solvent

This solvent system is formulated to remove asbestos dust, oil, grease, brake fluid and other soils from brake parts. Evaporates quickly and completely, leaving no residues, and will not interfere with subsequent brake operations. Contains no chlorinated hydrocarbons.

Benefits:

- Highly effective brake part cleaner
- Quickly washes away grease & grime
- No chlorinated hydrocarbons
- Harmless on metal, rubber, lining & pads

Applications:

- Automotive repair shops
- Car and motorcycle dealers
- Car and truck rental & leasing
- Service Stations

Directions for Use:

Appropriate respiratory protection should be worn when spraying to avoid breathing brake dust and product vapors. Fill an approved sprayer (such as the Compressed Air Sprayer, PN R146) with product and pressurize according to manufacturer's directions. Spray onto brake calipers, rotors, wheel cylinders, or drums to remove brake dust and grease. Catch run-off in container for proper disposal. Allow parts to air dry prior to reassembly.

Base Code: R189

Companion Products:

	Base Code
Brake Wash Solvent Aerosol.....	R190
Compressed Air Sprayer.....	R146
Choke & Carburetor Cleaner.....	R193
